MINI-CASE

07 / 10

A local Irving business wants to hire ONE person to build a mobile game that teaches kids to read. The app must work on iPhones AND Androids.

- 1 Which programming career from today (Software Developer, Web Developer, App Developer, or Game Developer) would you recommend for this job, and why? Use one fact from your career research worksheet. My pick: Why:

- 2 Name ONE specific tool or programming language this person will use on the job:

- 3 In one sentence, explain how that tool connects to what the business needs (an app that works on iPhones AND Androids).
