DIAGNOSTIC MCQ

01 / 10

A team makes its nanobot smaller and adds a brighter color. Which revision provides the strongest evidence that the design is safer?

- ☐ **A** The color makes the poster easier to see.
- ☐ **B** The smaller size may help it fit, but the team still needs evidence about control and vessel damage.
- ☐ **C** A smaller design is automatically safe.
- ☐ **D** The team should remove the completion signal to save space.
