

First Responder Career and Integrity Reflection

NAME _____

DATE _____

PERIOD _____

Use Evidence From the Week

1. Career decision: Name one first-responder career you would investigate next—or explain why none is currently a fit.

2. Route evidence: Name one accurate preparation or training fact from the dated route guide.

3. Work evidence: Name one task or responsibility that affected your decision.

4. Integrity evidence: Choose one moment from the Clinton Lake case or fictional patient report. Explain what could go wrong if a professional hid, changed, or failed to document information.

5. Next step: What is one realistic question, course, program, or experience you will investigate next?

I used evidence from: route guide · Clinton Lake files · trail simulation · Singley program page · optional Xello/H&L profile
