

Plant Science Communication and Evidence Rubric

NAME _____ DATE _____ PERIOD _____

Use this rubric to check your evidence packet

Your packet combines the Farm-to-Table infographic and the individual Emerging Plant-Tech Evaluation. Canva, Adobe Express, paper, or another approved route is equal. Xello completion, platform access, artistic polish, and public speaking are not separate rubric criteria.

CRITERION	MASTERS - 4	MEETS - 3	APPROACHES - 2	NEEDS IMPROVEMENT - 1	NO EVIDENCE - 0
Client and process accuracy	Four steps and two client facts are accurate, complete, and clearly tied to the fictional brief	Four steps and two facts are present; one detail is thin	Three usable steps or one fact; some sequence confusion	A partial process with invented or unsupported claims	Blank or off topic
Visual communication	Reading order, labels, visuals, contrast, and wording make the process easy to follow	Mostly clear and readable; one design choice slows the reader	Meaning is present but order, contrast, or labels are inconsistent	Reader must guess the order or meaning	Blank or unusable
Emerging-work evaluation	Explains how a named technology changes tasks, cites two dated facts, and states one data limit	Connects technology to work and uses two accurate facts	One accurate fact and a general technology connection	Names a tool or career with little evidence	Blank or off topic
Evidence, boundaries, and revision	Keeps salary measure/source/date accurate, respects fictional/privacy/copyright boundaries, and makes a useful revision	Evidence labels and boundaries are accurate; revision is visible	One label or boundary is confused; revision is limited	Unsupported salary/outcome claim or copied/unsafe content	Blank or off topic

Score record

CRITERION	POINTS
Client and process accuracy	/4
Visual communication	/4
Emerging-work evaluation	/4
Evidence, boundaries, and revision	/4
Total	/16

Before you submit

- ☐ I used only the fictional Sunny Fields client facts and did not add real contact details.
- ☐ My process has four steps, two client facts, and a clear reading order.
- ☐ I explained how one technology changes a work task.
- ☐ I attached the date, geography, and measure to each labor-market number.
- ☐ I stated that parent-occupation data cannot guarantee local starting pay or hiring.
- ☐ I made one useful revision after a reader test or self-check.

Reminder: Your message and evidence matter. Drawing skill, premium templates, and perfect English mechanics are not scored unless the reader cannot understand the meaning.
