

Mid-Year Career Blueprint Rubric

NAME _____ DATE _____ PERIOD _____

Mid-Year Career Blueprint: 16 points

Your teacher scores the three-page Blueprint. Days 1-4 help you build it; you do not submit five files. Platform access, art, public speaking, and whether your choice changed do not determine the score.

CRITERION	MASTERS - 4	MEETS - 3	APPROACHES - 2	NEEDS IMPROVEMENT - 1	NO EVIDENCE - 0
Assessment analysis	Compares an earlier result with at least two specific current pieces of evidence and explains agreement or change	Uses an earlier result and two current pieces of evidence; explanation is mostly clear	Names earlier and current evidence with a general comparison	Lists results without analysis	Blank or off topic
Career evidence	Uses accurate work, preparation, and correctly labeled pay or outlook evidence; names a meaningful trade-off	Uses accurate work and preparation evidence plus one labeled pay or outlook fact	Uses two career facts, but one label or explanation is incomplete	Career preference with little usable evidence	Blank or inaccurate
Pathway and experience decision	Uses a current district source, exact pathway/campus, one course or requirement question, and a relevant CTSO/experience benefit	Uses current pathway/campus evidence and a relevant experience or next question	Names a pathway with partial current-source or experience evidence	Names a general field or unsupported campus	Blank or invented
Blueprint reasoning and next action	Connects profile, career, and pathway evidence; includes a trade-off and a specific measurable next action	Connects all three evidence areas with a reasonable next action	Plan is understandable but one evidence area or action is thin	Plan is mostly unsupported or vague	Blank or off topic

What does not lower the score

- Your career choice, platform, art, speaking route, and English mechanics do not lower the score unless meaning cannot be understood.
- Use source labels and phrase an unconfirmed local detail as a question. Do not submit private profile screenshots.
