16-point scoring tool

CRITERION	4 - MASTERS	3 - MEETS	2 - APPROACHES	1 - NEEDS IMPROVEMENT	0 - INSUFFICIENT EVIDENCE
Source accuracy	Facts retain source, access date, geography, and measure; one limitation or uncertainty is named accurately.	Facts retain source/date and use the correct geography or measure label.	Evidence is relevant but one source or label is incomplete.	Uses a vague or unsupported fact as if verified.	Blank, off-topic, or copied without usable evidence.
Route reasoning	Direction cites two relevant facts, explains a tradeoff, and names evidence that could change the decision.	Direction cites evidence and names one tradeoff or eligibility question.	Direction has one evidence connection but limited tradeoff reasoning.	Direction is named with little relevant evidence.	No usable direction or reasoning.
Timed action plan	Three stages include verbs, completion evidence, realistic time windows, and an honest current/conditional/unverified label.	Three timed stages include actions and completion evidence.	Two usable stages or timing/evidence is incomplete.	One broad action without usable timing.	No actionable plan.
Support and revision	Names authorized support, obstacle, equal backup, revision condition, and makes a visible revision after self-scoring.	Names support, obstacle, backup, and revision condition.	Includes some support or backup evidence, but it is broad or incomplete.	Names one vague support or backup.	No support or revision evidence.

Scoring boundary

Score private evidence and reasoning. Do not score team model quality, public speaking, H&L ratings, family military background, English mechanics unless meaning is unclear, handwriting, art, or platform access.

Students may choose aviation, another Transportation career, or a current decision not to pursue the cluster. The direction itself is not graded.
