

Integrity and Evidence Audit

NAME _____ DATE _____ PERIOD _____

Four characteristics and four cases

CHARACTERISTIC	WHAT IT LOOKS LIKE
Work ethic	Reliable effort and responsibility
Integrity	Honest action and records, even when no one is watching
Dedication	Sustained commitment to quality and purpose
Perseverance	Continuing through difficulty while keeping safety and quality boundaries

Case 1: A fictional technician notices a blank checklist field after the item moved to the next station. A supervisor is available.

Characteristic and trustworthy action: _____

Case 2: A team receives two conflicting approved classroom measurements. A teammate wants to report only the better result.

Characteristic and accurate record: _____

Case 3: A fictional worker reaches shift change with one observation not yet verified.

Characteristic and honest handoff: _____

Case 4: A worker is pressured to sign an inspection they did not complete.

Characteristic and safe supervisor route: _____

Why perseverance never means continuing an unsafe or unauthorized task:

Paper practice check

1. Pressure to sign work you did not complete:

☐ Sign and fix later ☐ Do not sign; record the status and use the authorized supervisor route

2. Conflicting measurements:

☐ Keep both results, the conflict, and the approved next check ☐ Report only the preferred result

3. Perseverance means:

☐ Continue through difficulty while keeping safety and authorization boundaries

☐ Continue any task even when it becomes unsafe

4. Which statement is visible evidence of work ethic?

☐ I have good work ethic

☐ I completed every evidence row, noticed a weak explanation, and revised it

5. Which statement best shows dedication?

☐ I kept improving the required product because quality mattered, while still following the deadline and safety rules

☐ I refused every revision because the first version was already finished

EXPLAIN ONE DECISION

Choose one case. Name the characteristic, action, accurate record or handoff, and harm prevented.

Use this frame: This case requires **[professional characteristic]**. The worker should **[trustworthy action]** and record or report **[accurate information]**. This prevents **[possible harm]** because **[evidence-based reason]**.

Personal evidence audit and exit

Employment history is not required. Choose one prior class artifact.

Artifact or class task: _____

Characteristic: _____

Visible action that proves it:

One honest limitation or revision still needed:

Next action and completion evidence:

INDEPENDENT EXIT CASE

A worker is again pressured to sign an inspection they did not complete.

Use this frame: The worker should not [unsafe or dishonest action]. The accurate record should say [what is known]. The worker should contact [authorized person] because [reason].
