MINI-CASE

07 / 10

A new downtown Dallas high-rise construction project just had a minor crane incident at 40 feet above the street. No one was injured but the city wants a safety plan upgrade.

1 | Which A&C career (Safety Supervisor, Architect, Construction Manager, Drafter, Inspector) would LEAD the safety plan upgrade, and why? My pick: Why:

2 | Which TWO hazards from my Safety Supervisor underwater plan WOULD still matter for this high-rise scenario? - Hazard 1: - Hazard 2:

3 | Name ONE NEW hazard that only applies to a high-rise site (NOT underwater): Submit your Safety Supervisor plan with this ticket.
