

LASER FIRST LOOK

Read a finished sample before you build a file

Name: _____

Period: _____

Sample #: _____

Look at the physical sample in your hand. If your class is using the photo route, inspect the projected image. Record only what you can support with visible evidence.

SKETCH + LABEL THE SAMPLE

WHAT TO LOOK FOR

- CUT: an opening or outside edge that goes through the material
- SCORE: a thin line that stays on the surface
- ENGRAVE: a filled or shaded area removed from the surface

Operation	Found?	Visible evidence
CUT	☐ Found ☐ Not used	I notice _____ _____
SCORE	☐ Found ☐ Not used	I notice _____ _____
ENGRAVE	☐ Found ☐ Not used	I notice _____ _____

CONNECT THE OBJECT TO THE FILE

Cut and score usually follow a vector path or stroke. Engrave usually uses a filled vector shape or raster image.

The laser used _____ to _____. I know because _____
